

Job Description: Licensed Clinical Social Workers

Now Hiring — New Jersey

Integrative Psychology Services is a thriving clinical practice that has been providing psychological services to the elderly population in New Jersey since 2006. We provide clinical services in long-term care, assisted living, day programs, and independent living facilities. In keeping with the mission that everyone should have access to mental health care, IPS has expanded its practice to work with all populations via teletherapy.

We are currently looking for EXCEPTIONAL LICENSED CLINICAL SOCIAL WORKERS (LCSW) to join our practice. Continued growth has created positions in Essex, Morris, Warren, Somerset, and Bergen Counties. Our goal is to help our patients function at an optimal level both in facilities as well as in their personal and professional lives. To achieve this end, clinicians will also be working collaboratively with the staff at facilities, as well as caregivers and home healthcare support services.

If you're interested in an intellectually challenging and rewarding career where you can make a major difference in the lives of others, we invite you to submit an application to join our group. We believe clinicians should not be burdened by excessive paperwork or administrative tasks and should be provided with ample time to engage in meaningful therapy. This is the perfect position for someone who wants to experience working in a multidisciplinary team setting. While this opportunity is designed as a part-time position at the moment, there is room to grow within the group. Candidates **MUST** be licensed in the state of NJ.

Responsibilities and Duties

- Utilize a safe and caring approach combined with scientifically valid treatment interventions to teach patients coping skills that reduce depression and stress-related physical and psychological symptoms caused by medical issues and changes in the elderly person's social environment.
- Provide counseling, education, and training to assist caregivers and home health care agencies in meeting the needs of our elderly patients.
- Function as a vital part of a multidisciplinary treatment team.
- Identify and treat the major symptoms of problematic adjustment such as behavioral disturbances, depression, and anxiety.
- Utilize behavioral management strategies to address negative behaviors associated with dementia.
- Provide a broad spectrum of therapies including individual psychotherapy, group therapy, and consultation and supportive services to the families of residents of long-term care facilities and home-based settings.

Job Requirements

- Licensed Clinical Social Worker in the State of NJ.
- Driver's license and registered vehicle.
- Willing to travel.
- Dependable, creative, and enjoys helping others.

Salary and Benefits

- Excellent earning potential.
- Paid holidays and vacation time.
- Health insurance.

- Simple IRA plan.
- Part time or Full time (40 hours).
