

Job Description: Psychiatric Nurse Practitioners

Now Hiring — New Jersey

Integrative Psychology Services (IPS) is a growing and dynamic clinical practice providing psychological services to the geriatric population in long-term care, assisted living, day programs, and independent living facilities. In keeping with the mission that everyone should have access to mental health care, IPS also provides in-home psychotherapy to the geriatric population in Essex, Union, Morris, Warren, and Somerset Counties.

In order to better meet the needs of an aging-in-place population, we have decided to expand our service to include Psychiatric APNs and NPs. Part-time positions are available with excellent earning potential. We are looking for flexible and motivated APNs with geriatric experience to become part of our friendly, strong, and dedicated team. Our goal is to help our clients achieve an optimal level of functioning and allow them to age in place. To achieve this end, APNs will also be working collaboratively with caregivers, therapists, home healthcare support services, and other medical disciplines.

Position Qualifications

- Minimum 2 years experience working with the geriatric population.
- Master's degree in Psychiatric and Mental Health Nursing.
- N.J. State License as a Registered Nurse.
- N.J. State Certificate as an Advanced Practice Nurse.
- N.J. CDS and DEA Registration.
- National Certification for Clinical Nurse Specialist or Nurse Practitioner in Mental Health.
- ANCC certification as a Psychiatric and Mental Health Nurse Practitioner.
- Must have a collaborative agreement with a psychiatrist.
- Willingness and ability to work independently.
- Personable, passionate, and energetic.
- Previous experience with Medicare-eligible patients required.
- Ability to travel within the region.
- Active NJ driver's license with own transportation.

What We Can Offer

- Excellent earning potential.
- An administrative staff that handles insurance claims and credentialing.
- Friendly and supportive work environment.
- Collaboration with multiple disciplines.
- Flexible schedule.
- Great potential to expand hours/responsibility in the future.

Position Summary

- Periodically perform psychiatric evaluations and render diagnosis in accordance with standard medical practice.

- Evaluate the need for medications and prescribe in accordance with collaborative agreement and laws of the State of New Jersey.
- Perform medication monitoring, education, and counseling services, and psychiatric re-evaluations for assigned patient caseload.
- Work independently; communicate effectively both orally and in writing.
- Interact in a sensitive and tactful manner with patients and caregivers.
- Establish a collaborative relationship with other disciplines in managing the care of our patients.
